- ☐ effective
- ☐ effectiveness
- ☐ affect
- ☒ affected

19. C. Reading Comprehension. Read the following passages carefully and choose the best option.

Text 1

More and more studies are finding that certain foods, spices, and other household staples provide effective relief from common health problems. In fact, many physicians, concerned about the overuse of antibiotics and the trend toward treatment overkill for even minor medical problems, are recommending these simple cures. And patients are more than willing to give them a try, considering today's soaring medical costs and shrinking insurance coverage. The treatments here are more than just folklore—all of them come from decades of experience, and many even boast the kind of scientific credentials usually reserved for prescription medicines.

بررسی مجدد

In which of the following sentences does the word "concerned" have the same meaning as the

underlined **concerned** in the second line of the passage?

- ☐ We could not prove that he was concerned with the crime.
- ☐ Divorce is painful, especially when children are concerned.
- ☒ We were concerned about her safety when the earthquake happened.
- ☐ The study concerned the noise levels in big cities.

20. More and more studies are finding that certain foods, spices, and other household staples provide effective relief from common health problems. In fact, many physicians, **concerned** about the overuse of antibiotics and the trend toward treatment overkill for even minor medical problems, are recommending these simple cures. And patients are more than willing to give **them** a try, considering today's soaring medical costs and shrinking insurance coverage. The treatments here are more than just folklore—all of them come from decades of experience, and many even boast the kind of scientific credentials usually reserved for prescription medicines.

بررسی مجدد

In line 5, what does 'them' refer to?

- ☒ Some foods, spices, and other household staples used as simple cures
- ☐ Certain medicines such as antibiotics which are used for treatment
- ☐ Patients who are affected with diseases
- ☐ More and more studies

21. More and more studies are finding that certain foods, spices, and other household staples provide effective relief from common health problems. In fact, many physicians, **concerned** about the overuse of antibiotics and the trend toward treatment overkill for even minor medical problems, are recommending these simple cures. And patients are more than willing to give **them** a try, considering today's soaring medical costs and shrinking insurance coverage. The treatments here are more than just folklore—all of them come from decades of experience, and many even boast the kind of scientific credentials usually reserved for prescription medicines.

بررسی مجدد

According to the author, which one of the following is correct?

- ☐ A decrease in medical cost has led to a reduction in insurance coverage.
- ☐ Both medical cost and insurance coverage have recently remained stable.
- ☒ Although medical cost is increasing rapidly, insurance coverage is decreasing.
- ☐ There has been a decrease in medical cost and an increase in insurance coverage.

22. More and more studies are finding that certain foods, spices, and other household staples provide effective relief from common health problems. In fact, many physicians, **concerned** about the overuse of antibiotics and the trend toward treatment overkill for even minor medical problems, are recommending these simple cures. And patients are more than willing to give **them** a try, considering today's soaring medical costs and shrinking insurance coverage. The treatments here are more than just folklore—all of them come from decades of experience, and many **even** boast the kind of scientific credentials usually reserved for prescription medicines.

بررسی مجدد

It seems that the author of the passage is — the use of home remedies.

☒ positive about

☐ critical of

☐ indifferent to

☐ skeptical of

**23. Text 2**

The coronavirus disease 2019 (COVID-19) pandemic may be stressful for people. Fear and anxiety about a new disease and what could happen can be overwhelming and cause strong emotions in adults and children. Public health actions, such as social distancing, can make people feel isolated and lonely and can increase stress and anxiety. However, these actions are necessary to reduce the spread of COVID-19. Coping with stress in a healthy way will make you, the people you care about, and your community stronger. Taking care of your friends and your family can be a stress reliever, but it should be balanced with care for yourself. During times of increased social distancing, people can still maintain social connections and care for their mental health. Phone calls or video chats can help you and your dear ones feel socially connected, less lonely, or isolated.

Which word in the text is synonymous with the verb "tackle"?

- ☐ balance with
- ☐ connect with
- ☒ cope with
- ☐ care for

24. The coronavirus disease 2019 (COVID-19) pandemic may be stressful for people. Fear and anxiety about a new disease and what could happen can be overwhelming and cause strong emotions in adults and children. Public health actions, such as social distancing, can make people feel isolated and lonely and can increase stress and anxiety. However, these actions are necessary to reduce the spread of COVID-19. Coping with stress in a healthy way will make you, the people you care about, and your community stronger. Taking care of your friends and your family can be a stress reliever, but it should be balanced with care for yourself. During times of increased social distancing, people can still maintain social connections and care for their mental health. Phone calls or video chats can help you and your dear ones feel socially connected, less lonely, or isolated.

بررسی مجدد

It is implied from the text that -----.

- ☐ social distancing can remove people's anxiety in the time of the pandemic
- ☐ social distancing only has positive and beneficial aspects
- ☐ social distancing is considered as a private health measure
- ☒ though social distancing can cause worry, it is essential

25. *The coronavirus disease 2019 (COVID-19) pandemic may be stressful for people. Fear and anxiety about a new disease and what could happen can be overwhelming and cause strong emotions in adults and children. Public health actions, such as social distancing, can make people feel isolated and lonely and can increase stress and anxiety. However, these actions are necessary to reduce the spread of COVID-19. Coping with stress in a healthy way will make you, the people you care about, and your community stronger. Taking care of your friends and your family can be a stress reliever, but it should be balanced with care for yourself. During times of increased social distancing, people can still maintain social connections and care for their mental health. Phone calls or video chats can help you and your dear ones feel socially connected, less lonely, or isolated.*

پررسی مجدد

According to the text, which of the following is correct during the times of extended social distancing?

- ☐ People should avoid social connections to prevent the spread of the disease.
- ☒ Making phone calls is one of the ways to can keep you socially connected.
- ☐ Paying attention to one's mental health is almost impossible.
- ☐ You had better keep isolated from other people.

26. Text 3

As we age, we trade strength for ingenuity, speed for thoroughness, passion for reason. These exchanges may not always seem fair but at every age, there are some advantages. So it is reassuring to note that even if you've passed some of your "primes", you still have other prime others to experience in the future. Certain important primes seem to peak later in life.

Men are healthiest from 15 to 25 and women from 15 to 30. It is hard to deny the generally greater fitness of women. Life expectancy for men is now 68.3; for women, 75.9 says the aging authority William Kannel, "Older women with low blood pressure are practically immortal". However, psychologists believe that by entering the competitive job market in increasing number, women may eventually give up their statistical advantage.

The word "As" in the first line of the first paragraph is closest in meaning to "as" in _____.

- ☒ As I was leaving, the phone rang.
- ☐ He works as a waiter.
- ☐ I do not play football as much as I used to.
- ☐ As he worked hard, he reached success.

27. **As** we age, we trade strength for ingenuity, speed for thoroughness, passion for reason. These exchanges may not always seem fair but at every age, there are some advantages. So it is reassuring to note that even if you've passed some of your "primes", you still have other prime others to experience in the future. Certain important primes seem to peak later in life.

Men are healthiest from 15 to 25 and women from 15 to 30. It is hard to deny the generally greater fitness of women.
